Office Action Summary

FIRST OFFICE ACTION

1. This application contains 97 pages of appendix. If the appendix is desirable to be printed in the issued patent, a clear and legible copy should be provided.
2. This application contains claims 6 and 31 only. All other claims have been canceled.
3. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

4. Claims 6 and 31 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1 and 6, respectively, of prior U.S. Patent No. 6,172,475 B1. This is a double patenting rejection.

In fact, claims 6 and 31 are identical to claims 1 and 6 of U.S. Patent No. 6,172,475 B1.

5. Any inquiry concerning this communication should be directed to Bentsu Ro at telephone number (703) 308-3656.
